

(EXAMPLES ONLY – NOT ACTUAL CUSTOM TINS)

WILDLIFE CUSTOM TINS

For more than 200 years, America has had a love affair with wildlife from around the world. But now America's Zoos, Aquariums, Wild Animal Parks, and Wildlife Conservation Organizations are more strapped for funding than ever before... just as the planet's native species are more endangered – by global warming, pollution, poaching, and other largely man-made threats – than ever before. Our **Custom Tins** – filled with a variety of delicious milk and dark chocolate drops and imprinted with your Organization's logo, iconic animal, or any other image you like – can help you raise funds to continue to shelter, preserve and protect the world's wildlife, and increase awareness of the dire threat to Earth's vanishing species at the same time.

Do you have a special idea to commemorate an important anniversary in your Organization's history? Or do you need a special promotional tin to help raise funds or to use as a Membership Premium? We can and will do that for you!

We offer **Custom Tins** in your choice of either digital labels or beautiful screen prints. You provide us with your artwork and we do the rest. Either choice offers your Organization's patrons and supporters with a unique and distinctive way to remember your vital work for years to come... and to remind them of the importance of continuing to support America's Wildlife Organizations.
